

# KICKSTAR

ANIMATION®

Kick Star is an electronic football target goal. Hit one of the 12 sensor targets on the goal, and score. The score is then displayed on the top of the goal on the digital LCD display. Kick Star is great fun for all !

Kick Star is played by maximum 9 players and has 3 game-modes :

Score Master : the goal is to finish first by exceeding a previously defined number of points.

Target Master : the goal is to hit as many targets as possible in 15 shots.

Target Shot : the goal is to hit predetermined targets

Extra barriers create a "stadium"-feeling, avoid that the ball gets lost and give extra possibilities for branding.

Game-information is displayed on a bright LCD display and the operator controls the game using a wristband remote control.
