

# THE VELODROME TABLE

**ANIMATION®**

The concept of the Velodrome table is very simple : up to 6 riders compete against each other in a cycling race. They pedal on real static bikes and can see the progress of the race on the velodrome table where each of the competitors is represented by a miniature cyclist in the same color as the real bike. The one who crosses the finishline first is the winner !

A race on the velodrome table is always exciting and often hilarious, with comments given by the operator and the legs of the miniature cyclists moving their legs as if they are really pedalling themselves.

The software automatically keeps track of all the results, including the times up to 1/100th second.

The velodrome table is also available with bikes for kids.

The most used configuration of the velodrome table is with 4 riders.

## TECHNICAL INFO

Space required :

4,5 x 4,5 m minimum covered

Power supply :

1 x 240 volts, 1500 watts

Capacity :

max. 60 players/hour

Installation time :

60-75 minutes

Minimal dooropening :

80 cms

Option branding :

yes

Stock :

5
